If you are up to the challenge, then keep on reading, and discover the amazing opportunity below...

PROJECT MANAGER (M/W)

Your role

As a Project Manager at ALTEN, you will integrate our client's teams in R&D or in the field, to initiate the project phases, develop the project and establish the cost structure.

You keep an eye on the performance indicators in accordance with the budget.

You provide several controls, management tools and reports in order to ensure the timeliness of the project.

You also manage the coordination meetings

Your profile

You have an engineering diploma, with a first experience in automotive, aeronautics or railway.

Knowledge of MS Project is an asset.

In addition to your technical skills, you are:

Proactive with a problem-solving approach and interpersonal skills

Proficient in English and French or Dutch
